

Pressure Pot 20

Description

The Pressure Pot 20 has a volume of 20 liters and is suitable for solvent borne materials supplying either manual or automatic spray guns. The pressure pot and its material path are made of high-grade steel with

a PTFE coating ensuring easy maintenance and durability. Its inner steel pot is made of stainless steel. Thanks to four integrated wheels the pressure pot can be moved easily.

Customer Benefits

- » Simple and robust design
- » PTFE coating for better maintenance
- » Four wheels for easy carriage
- » Pressure valve to ensure maximal operating pressure
- » Material path made of high-grade steel
